

Conference:

"Let's do it together - How to revitalise a city with its residents ?"

Day 1: 20th May 2021, 10:00 – 15:30

Day 2: 21st May 2021, 10:00 – 15:00

Dear Urbact Friends and City Explorers,

We invite you to an extraordinary journey during which together we will be weaving a collaborative city.

First, we will visit Toulouse, Zagreb and Braga where we will learn about their recipes for involving citizens in urban regeneration investments. Then, we will look into Bologna, which will show that culture can be the key to successful integration around a revitalised space. Finally, we will stop for a while in Baena, Birmingham and Lodz to learn about the importance of urban mediation and discover the potential of working directly with residents.

Our journey will end under a large tree with many branches and leaves which will give you some rest and a lot more inspiration to act and grow bigger in your cities - include, integrate and build active neighbourhoods.

All of this awaits you at the Final Virtual Conference **"Let's do it together - How to revitalise a city with its residents ?"** organised by the URBAN-REGENERATION-MIX Network.

Participation in our events is free of charge. The 1st day is open to everyone. The 2nd day we dedicated to members of our network.

To register for the event and join us in this journey click [here](#)
